## Grapple Question:

Is Our Environment *Really* Falling Apart?

## Kids Learn:

Responsibility for Creation

## Dig Into the Bible:

Genesis 2:8-15; Psalm 115:15-16; Romans 8:19-22; Hebrews 4:13

In the past few years, ongoing research has shown how bad our environment is getting. And God calls us to help take care of that environment. But how can your family help?

Sit down and brainstorm ways your family can reduce waste and energy use. Some ideas include: using canvas bags for grocery shopping, turning off lights you're not using, and carpooling to work or school. Can you come up with at least 10 different ideas? Then challenge each family member to commit to doing at least one of those things during the next week.
